CT CORPORATION

Jerry W. Daniel
Director of Government Relations

December 6, 2001

Mr. Patrick Hole
Business Services Division
Ohio Secretary of State's Office
180 E. Broad Street, 16th Floor
Columbus, OH 43215

Dear Mr. Hole:

Thank you so much for telephone call of last week concerning the problem that we have experienced with the change of address of our Cleveland office which originally took place in May of 1998. We will look forward to the resolution of the problem as outlined in this letter.

In May of 1998, we filed a change of address with your office for all business entities represented by CT Corporation System at 815 Superior Avenue, NE, Cleveland, Ohio 44114 to 1300 East Ninth Street, Cleveland, OH 44114. At that time, there were a number of different procedures required depending on whether the business entity was a domestic or foreign. We made every effort to comply with the requirements of your statute. As we discussed, because of the volume of this filing and the limitations of your computer system, it took a great deal of time for your office to process this change of address. We all recognize that a number of these addresses were never changed for one reason or another.

Your office is developing a software system that will allow a much simpler process to change the address of an agent that represents a large number of companies. You expect that the software will be completed within the next two months and have offered to allow us to benefit from your need to test the system in production by using it to complete the address change for our Cleveland office. As I understand the system, you will be able to produce a list of all the companies that are represented by CT Corporation System at the old Superior Avenue address in Cleveland and then upon our approval you will be able to change all of those addresses to the Ninth Street address. We discussed the fact that once you produce the list you can send it to us for our review and deletion of any company for which we do not wish to change the address. I indicated that that step would probably not be necessary in this case since it is our position that we would prefer to have all active companies that we represent in Cleveland at the new address. Therefore, to simplify the process, we have agreed that you will notify me by phone of the number of companies and I will give you either a verbal or faxed approval to proceed with the address change. Would it be possible to provide an electronic file of the companies changed?

We recognize that this is a new program and this change of address will be the first test of the program in production and that all may not go perfectly. We are confident in the systems that you have developed and are willing to take the minor risk of being the first to try the system in order to fix what has been persistent a problem for us since 1998. We are also confident that if the change of address is not successful, your office will continue to work with us to resolve this problem.

Thank you again for your call and your willingness to assist us in getting our Cleveland address correct on your records. We look forward to working with you towards a successful conclusion.

Sincerely,

Jerry W. Daniel
